I am a front-end developer offering +3 years of experience developing responsive websites and applications for several companies. Skilled in designing and developing web-based applications incorporating a range of technologies. I possess good coding skills, with the ability to learn new technologies fast and believe that a good engineer should build the system to change not to last. I make effort to write good, reliable and maintainable code. Adept at adjusting work pace to satisfy client needs and a superb record of project completion at or well before deadlines.
